Abstract in Arabic

Textual cohesion among Islamic geniuses:
An applied study from textual linguistic perspective.

Prepared by : Fatima Ibraheem Hussain Abbasi, under the supervision of Prof. Dr. Sameer Staitieh, and Dr. Mustafa Alhiadreh.

This thesis is dedicated to study the textual cohesion in Islamic geniuses - an applied study from textual linguistic perspective, in two levels: the lexical level, and semantic level.

The researcher followed in her analytical approach, which is based on the complete induction of the text to extract the elements of cohesion in the lexical and semantic levels, and determine their impact in achieving an accurate understanding of the readable text .

The researcher reached to set of results , one of the most important is to study the text and analysis of great value, this value is in the taper of manifestations coherence and harmony in the text, in front of connotations and underlying meanings, which the deliberate study contributed in disclosure ; then appeared group of linkages surface, which is difficult for the reader to discover at the initial reading of the text.
